

Patient Testimonial

One of the best ways to get people in pain and suffering to try acupuncture is to have them read about the success stories of other patients. Testimonials will appear on the **Acupuncture of Morris County** website (www.acupunctureofmorriscounty.com) and may change from time to time on a rotating basis.

Your input regarding your experience and success with acupuncture is greatly appreciated.

In order to protect your identity, only your first name and last initial will be used along with your testimonial. No additional information about you will be disclosed.

Please describe in your own words how acupuncture has helped you. If you are stuck with what to say, the following guideline may help you to get started:

1. Talk about your pain or condition before you started acupuncture and how it affected your life, e.g., activities that you could no longer do because of the pain, etc.
2. Talk about other treatments you may have tried, how long you tried them and if they helped.
3. Talk about how you felt about your condition before trying acupuncture: frustrated, hopeless, etc.
4. Talk about how acupuncture has helped you with your pain or condition.
5. Talk about your acupuncturist's demeanor, professionalism, willingness to listen, answer all of your questions, etc.

You can also add things about how the acupuncture makes you feel, e.g., more calm, relaxed, less stressed and if it helped any conditions other than the one/s you came in to get treated for.

You can either write on this paper or another and hand it back to me or feel free to email me at: david@acupunctureofmorriscounty.com

Thank you so much. Your testimonial will help us to reach others who can also benefit from acupuncture.
